

--|Hosting|--

Atlanta Multimedia is pleased to provide top-of-the-line hosting for our customers with 99.5% uptime and 24-hour support.

Atlanta Multimedia challenges you to find a better hosting service. We pride ourselves in our hosting packages. Whether you are a small local business or a large business with hundreds of employees we can set you up with the hosting package that is right for you. Blue Light Labs allows you and all your employees to have their own email address at your domain (i.e. yourname@yourdomain.com). Atlanta Multimedia Hosting also gives you the ability to check and respond to email messages anywhere in the world. The simple interface makes it easy to use, regardless of your technical ability.

Every aspect of your web site and your e-mail are right at your fingertips with our original hosting administration panels. When you are hosted with Atlanta Multimedia, you can maintain your hosting and e-mail yourself, or you can have us administrate it for you. Site statistics, counters, email addresses, submission tools, and many more services are all part of Blue Light Labs hosting service.

--Hosting Features--

Each account comes with an online Control Panel, which allows you to easily access all the features and tools included in your account. The Control Panel enables you to manage your site effortlessly and quickly.

For your convenience, and to save on postage and trees, we have developed an e-mail billing system with a billing panel so you can see your balance and see when your next bill will be due.

-Web Mail-

-Our Web Mail interface makes it easy to send and receive e-mail from your domain.

-Each E-mail address receives a corresponding Web Mail User Panel, so everyone in your company may have their own private e-mail.

All our hosting plans include:

- Full CGI-BIN Access
- Mailing Lists
- Detailed Web Statistics
- POP3 e-mail
- Web e-mail access
- Password Protected Directories
- Site Creation Tools
- FrontPage Support

-Atlanta Multimedia Control Panel-

Here you can add and delete mail accounts with the push of a button. Add e-mail forwarding, aliases, and auto responses with ease. The Control Panel has many other features such as:

- Submission to Top 30 Search Engines
- Mailing List Manager
- Counter
- Form Mail
- Site Statistics
- Web Mail
- Resource Meter and more...

-Atlanta Multimedia Servers-

Our servers are connected to a major Internet Backbone by fiber-optic cables. These lines can handle the bandwidth of a T3 or an OC3. Plus, they handle several times

The bandwidth of an OC3. Redundant connections and hot swappable servers

minimize down time, with 99.5% uptime of your web site.

Hosting your domain with Atlanta Multimedia Web Hosting makes perfect sense. Our prices are among the lowest in the industry, yet we pride ourselves on providing you with a level of service unmatched by our competitors.
